## **1.0. INTRODUCTION**

1.1. The Planning, Research and Statistics Department, embarked on Monitoring and verification of the Constituency Projects under the Special Project Unit (SPU) of the Ministry, across the (36) States of the Federation and Federal Capital Territory (FCT). The Monitoring and Evaluation exercise was conducted by the officers from the Project implementing Departments in conjunction with the officers from the Planning, Research and Statistics Department within the context of its coordination of the exercise.

1.2 The Constituency Projects were initiated by the National Assembly Members to impact various communities within their Constituencies and Senatorial Districts across the country, in line with the Sustainable Development Goals (SDGs)

## **2.0. OBJECTIVES OF THE EXERCISE**

2.1. The objectives of the exercise are as follows:

- i. ascertain the level and quality of work done;
- ii. know the stages of implementation of the projects;
- iii. confirm the level of completion of the projects;
- iv. justify value for money and
- v. ascertain the Socio-Economic Impacts of the Projects on the Host Communities

## **3.0. SCOPE OF THE VERIFICATION.**

3.1. The exercise was earmarked for the verification of some Constituency Projects Awarded in the year 2020 across the Thirty Six (36) States of the Federation and Federal Capital Territory (FCT). As a result of the large number of projects monitored, the exercise was grouped in to two (2) batches in order to cover the Six (6) Geo-Political Zones of the Federation.

## **4.0. METHODOLOGY**

4.1. The following methods were adopted for the Monitoring exercise:

- I. physical verification of the projects;
- ii. taking of site photographs, using Time Stamp Camera showing locations, dates and time;
- iii. uploading of site photographs into the Kobol Tool Box App;
- iv. creation of WhatsApp group to monitor and release information to officers slated for the monitoring exercise;
- v. letters of Introduction were given to each officer, which specified the purpose of the assignment and introduction to the Field Office Controllers and
- vi. impact of projects by interface with the host communities

## **7.0. OBSERVATIONS/FINDINGS**

**7.1.** The following are the observations/findings of the Monitoring and Evaluation team during the Verification Exercise:

- (a) 183 Constituency projects were listed for the verification exercise, 129 were completed resulting in the creation of 4,704 direct jobs and 14,112 indirect jobs;
- (b) 2 Constituency Projects in Kogi and Rivers States, are still on-going.
- (c) 6 contractors in Bayelsa, Rivers, Delta and Lagos States are yet to report to site, two projects in Gombe and Yobe were not found;
- (d) 34 projects could not be visited, due to insecurity
- (e) 3 projects in Akwa Ibom and Gombe States, could not be physically verified because they were empowerment programmes for the youths and women. The Field Office Controller was not carried along by officers from Special Project Unit (SPU) in the execution of the programme;
- (f) 9 projects in FCT and Taraba State were not visited due to the fact that the Field officers that were meant to lead the Monitoring Team to site have retired from the service;
- (g) the construction of a Block of 3 Classrooms at Magaji Wando, Dandume LGA, Katsina State, was completed but the roof was damaged by wind before the expiration of defect and liability period. The Field Office Controller revealed that the project was not supervised by the Field office.
- (h) It was observed generally that due to insecurity, the Field Office Controllers were reluctant to release official vehicles to ease the movement of monitoring officers to the various project locations; and
- (I) Some Constituency projects in Akwa Ibom, Anambra, Bayelsa, Eboyin, Ekiti, Jigawa, Imo, Kaduna, Kano Katsina, Kwara, Oyo and Ondo States were completed and yet to be commissioned for use.
- (j) The use of GPS camera was not effectively applied in the conduct of this exercise, location date and time did not appear in some site photographs attached to projects on the report. The Federal Ministry of Finance, Budget and National Planning have introduced GPS as a component in the Budget appropriation for getting the location and coordinate, on the implementation of projects and programs by MDAs.

## **8.0 CHALLENGES**

**8.1** The following factors were found to have hindered the effective execution and performances of most of the projects monitored;

### ***(a) Delay in the Submission of Reports***

*The delay associated with the submission of reports after monitoring and verification exercise, could be linked to the need to build the capacity of the staff of monitoring and evaluation in report writing skills*

### ***(b) Completed Projects That Were Not commissioned for Use***

Some projects were completed but not put to use. The projects are:

- i. Construction of Skill Acquisition Centre at Akinmorin Grammar Sch. Akinmorin, Iware Rd., Afijo LGA, Oyo State.
- ii. Construction of Town Hall Building at Ijero/Ekiti West/Efon Alaaye, Ekiti State.

- iii. Completion of Maternity Centre at Iwaro, Ipoti-Ekiti, Ekiti State

***(c) Execution of Projects Without Involving the Field Office Controllers***

*The Field Office Controllers in Gombe and Akwa Ibom States revealed that they were not carried along in the Constituency empowerment programmes organised by the Special Project Unit (SPU) for the youth and women. They do not have the records on how the programmes were executed.*

**(d) Projects not Visited Due to the Retirement of Field Officers**

9 projects were not visited in Taraba and Federal Capital Territory (FCT), because the Field Officers have retired from service. This affected the monitoring of the projects in the areas.

**(e) Delays Associated with the Reporting Application**

Generally, the Monitoring and Evaluation team members complained that the Photographs sent to the Reporting Application (Kobo Tool Box) were not found during the collation of reports. This could be associated with network challenges arising in the areas visited.

**(f) Projects Not Visited**

Thirty four (34) Projects were not visited by the Monitoring team due to insecurity challenges

**9.0 RECOMMENDATIONS**

9.1. Based on the foregoing observations/findings and challenges, the team proffered the following recommendations for the consideration by the Management:

- (a) the Special Project Unit (SPU) should liaise with the Senators and Honourable Members of the National Assembly to ensure that completed projects are urgently put to use without delay. The implication is when a project is not put to use six months after completion, the contractor that executed the project would not be liable for any dilapidation or damage on that project;
- (b) appropriate steps should be taken to ensure that the Field Office Controllers are involved in any project executed in the State.
- © there is need for the posting of professionals to Field Offices where there are vacancies, so that supervision of projects will not be hindered.
- (d) training and capacity building programme should be organised for monitoring officers, in order to improve their capacity and avoid delay associated with collation and submission of report;
- (e) the Application used for the monitoring report, Kobo Tool Box, need to be reviewed for effective storage and retrieval of data;
- (f) GPS Application should be used in subsequent monitoring and verification exercise to track the coordinate and location of projects, this is to be in conformity with its introduction into the Budget Appropriation by the Federal Ministry of Budget and National Planning; and
- (g) the Monitoring and Evaluation team could be asked to Monitor those Projects that were not visited and the Constituency Projects awarded in the year 2021.

## **10.0 CONCLUSION**

10.1. The Monitoring and Evaluation team wishes to express its gratitude to the Management for the confidence reposed on the members/staff to carry out this Project Monitoring Exercise. We sincerely hope the Management would consider the need to expedite actions towards the implementation of its recommendations.
